

FROM JULY, REGISTER ENTERPRISE ONLINE WITH AADHAR, SELF- DECLARATION: GOVERNMENT

By- Saumya Tripathi

The government on Friday notified new norms to allow online registration of the new enterprises based on the self- declaration, doing away the requirement to upload documents and certificates, from July 1.

Officials are saying that this has been made possible with the integration of the Udhyan Registration process with the systems of Income Tax and GST and details filled it can be verified on the basis of PAN number or GSTIN details.

If any enterprise is there it is also registered on the basis of the Aadhar number. If any person wants to give self-declaration it is also done on the basis of the Aadhar card number. So, it becomes very important to have Aadhar means to have an identity and now it is getting available from the Udhyan Registration.

As all of the things in India is done with the verification for the purpose of the security and for that the first things that is asked the Aadhar card that become your identity to be the citizen of India. And now when it has been self-online then it becomes easy and this is known as Udyam Registration.

As declared earlier, investment in 'plant and machinery or equipment' and 'turnover' are the basic criteria for the classification of the MSMEs now.

The process of registration can be done online through the portal which will be made known to the public before 1 July, 2020.

Those people who are not having the Aadhar number now can easily access to it, they can approach the single window systems for facilitation along with Aadhar enrollment request or identity, bank photo passbook or driving license and the single window systems will facilitate

them in registering after getting Aadhar number. Minister of MSME Nitin Gadkari said the new system of classification, registration and facilitation of MSMEs will be an extremely simple and yet fast-track seamless and globally benchmarked process and revolutionary steps towards ease of doing business.
